

PUBLIC NOTICE

January 3, 2019

Monte Carlo Blvd.: Street Work

The City is currently soliciting bids to construct additional lanes on Monte Carlo in front of the new Southard Middle School.

This section of street on Monte Carlo between the wye where Monte Carlo becomes 2 lanes, and the intersection at FM75 is slated for reconstruction and additional lanes in preparation for the school traffic. As soon as the Right of Way on the north side of the road, across from the new Southard Middle School is transferred to the City from the developer, the construction can proceed.

The section between the Tickey Creek Bridge and FM75 was graded in preparation for the construction, however the recent conditions in weather and rains have prevented the installation of a temporary surface in this section.

We are aware of the poor conditions in this section and will install the temporary surface as soon as the conditions allow. Please bear with us, and we apologize for the inconvenience.

Sincerely,

Tommy Mapp

Director of Public Works
